

Carbon Policy

Publication date: January 1st 2023

Commitment to achieving Net Zero

Playback Studio is committed to achieving Net Zero emissions by 2030.

Playback Studio Carbon Policy

1. Playback Studio will strive to reduce carbon emissions in our operations and wherever possible, use renewable or sustainable sources of energy.
2. All staff members have a responsibility to contribute to reducing the carbon footprint of Playback Studio
3. All staff members are encouraged to reduce the number of emissions they generate in their day-to-day activities.
4. Playback Studio will monitor, and track energy usage and carbon emissions related to operations and business travel and take to emissions wherever possible.
5. Where feasible, Playback Studio will use renewable or sustainable sources of energy, such as solar panels, wind turbines, or green sources
6. Playback Studio will seek to reduce its reliance on fossil fuels and other non-renewable energy sources by making energy efficiency and conservation measures a priority.
7. Wherever possible, Playback Studio will purchase and use products and services that minimise the environmental impact.
8. Playback Studio will promote the use of public transportation, carpooling, and other measures to reduce the number of vehicle and amount fuel.
9. Playback Studio will encourage staff to reduce their carbon

SIGNED ON BEHALF OF THE SUPPLIER:

L.Goulbourne

Name: Lee Goulbourne

Position: Director at Playback Studio
